INDEPENDENT ACCOUNTANTS REPORT ON APPLYING AGREED-UPON PROCEDURES

Honorable Board of Trustees
School District No. 21
Polaris
Beaverhead County, Montana

We have performed the procedures enumerated below, which were agreed to by School District No. 21, Polaris, Beaverhead County, Montana, and the State of Montana, solely to perform a financial review of the School District as of and for the year ended June 30, 2014, as required by Section 2-7-503, MCA. The school district's management is responsible for the financial statements, compliance with the specified requirements and internal control over compliance with those requirements. This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the State of Montana, as required by Section 2-7-503, MCA. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

a. We reconciled the District's cash/investment balances as reported on the Trustees' Financial Summary (See Schedule A) with the records of the County Treasurer, or bank accounts, if applicable.

   We found no exceptions as a result of these reconcilement procedures.

b. We examined the July, 2014 disbursements journals and expenditures made in that month to determine if payables are recorded at June 30, 2014. (See Schedule A)

   We found no exceptions in the recording of payables as a result of these procedures.

c. We determined whether the District maintained records of capital assets and had documentation to support the records, as required by Administrative Rules. (ARM 10.10.407)

   The District had documentation to support the capital assets records.

d. We compared budgeted property tax revenues to actual property tax revenues for each budgeted fund; noted any variances in excess of 5% or $ 500, whichever is greater; and determined the reasons for such variances.
