

**BUDGETARY ACCOUNTING AND REPORTING SYSTEM**  
**(BARS)**  
*FOR MONTANA CITIES, TOWNS AND COUNTIES*

**FUND CLASSIFICATIONS**

Governmental fund accounting includes three (3) broad categories of funds and eleven (11) fund types within those categories. The BARS fund structure consists of a four-digit number, with the first digit designating the fund type, as noted below:

1. **Governmental Funds**
  - [General Fund – 1000](#)
  - [Special Revenue Funds – 2XXX](#)
  - [Debt Service Funds – 3XXX](#)
  - [Capital Projects Funds – 4XXX](#)
  - [Permanent Funds – 8XXX](#)
2. **Proprietary Funds**
  - [Enterprise Funds – 5XXX](#)
  - [Internal Service Funds – 6XXX](#)
3. **Fiduciary Funds**
  - [Trust Funds– 70XX](#)
    - Pension Trust Funds
    - Investment Trust Funds
    - Private-Purpose Trust Funds
  - [Custodial Funds – 71XX](#)

Former “account groups” for [capital assets](#) (9000) and [long-term liabilities](#) (9500) are no longer reported in the financial statements but may be maintained to facilitate the preparation of the government-wide financial statements.

One of the purposes of the BARS is to ensure consistent reporting among all Montana local governments. To that end:

- **The most commonly used funds have been assigned a fund number. These fund numbers should be used by all local governments.**
- Subcategories have also been established for consistent reporting of specific sources/purposes of funds. (Note: Subcategories, such as Local Sources, State Sources, etc., are printed in **Bold** font on the following pages.)
- Unless indicated as otherwise, all other funds may be assigned a number by the local government entity to identify the unique funds they are using. However, **fund numbers assigned should fall within the most appropriate pre-established sub-category.**

**BUDGETARY ACCOUNTING AND REPORTING SYSTEM**  
**(BARS)**  
*FOR MONTANA CITIES, TOWNS AND COUNTIES*

Remember:

- When establishing a fund, local governments should review the definitions of the fund types presented on the following pages, to ensure that the fund is classified within the most appropriate fund type.
- The general rule in governmental accounting is to establish the minimum number of separate funds consistent with legal and operational requirements. Using too many funds causes inflexibility and undue complexity in budgeting, accounting, and other phases of financial management. **Adequate financial accounting separation may often be met through the use of separate cash, revenue, and expenditure accounts within existing funds, rather than by the creation of a new fund.** The BARS account and transaction structure will accommodate this separate accountability within a given fund.

**BUDGETARY ACCOUNTING AND REPORTING SYSTEM**  
**(BARS)**  
*FOR MONTANA CITIES, TOWNS AND COUNTIES*

**FUND  
CODE**

**FUND TYPE**

1000      **General Fund** - This fund accounts for all financial transactions not properly accounted for in another fund. The general fund is created and maintained to finance the general, overall functions of a governmental unit, such as the **GENERAL GOVERNMENT** (LEGISLATIVE SERVICE, TREASURY ACCOUNTING - LEGAL, ETC.), **PUBLIC SAFETY** (LAW ENFORCEMENT, FIRE, EMERGENCY SERVICE), **PUBLIC WORKS** (STREET-ROADS, WATER, SEWER), **PUBLIC HEALTH** (HOSPITALS, NURSING HOMES, ETC.), **SOCIAL AND ECONOMIC SERVICES** (WELFARE, ETC.), **CULTURE AND RECREATION** (LIBRARY, FAIRS, ETC.), **HOUSING AND COMMUNITY DEVELOPMENT, CONSERVATION OF NATURAL RESOURCES, DEBT SERVICE, INTERNAL SERVICE, MISCELLANEOUS, and OTHER FINANCIAL USES.**

County/7-6-2501 – Subject to Section 15-10-420

County All Purpose/7-6-2521, 2522, & 2524 – Subject to Section 15-10-420

City and Town/7-6-4451 – Subject to Section 15-10-420

Note 1: County All-Purpose Mill Levy will be included in this fund. The all-purpose levy replaces the following levies: General, Bridge, Recreation, Fair, Weed, Insect Pest, Poor and Developmental Disabilities.

Note 2: Section 15-10-420 places a limitation on property tax to the amount authorized to be levied. Voted levies are exempt from this limitation. All mill levy caps have been removed from law. Mill levies are limited under the provisions of Section 15-10-420, MCA.

**BUDGETARY ACCOUNTING AND REPORTING SYSTEM**  
**(BARS)**  
*FOR MONTANA CITIES, TOWNS AND COUNTIES*

**FUND  
CODE**

**FUND TYPE**

2000      **Special Revenue Funds** - The funds are established to account for resources allocated **by law, contractual agreement, or administrative regulations for specific purposes or activities**. A special revenue fund normally derives its revenue from local general property taxes, assessments, grants, or shared revenue from another government.

As a general rule, where the intent of the governing body is that costs of providing goods or services are to be financed primarily by **user charges**, an **Enterprise Fund** would be used.

#### **FUND** **CODE**      **FUND TYPE**

4000-4999 **Capital Projects Funds** - Capital Projects Funds are used to account for revenues received from bond or other long term general obligation debt issues, special assessment debt issues, grants, or shared revenues from other governments, transfers from other funds or other sources, and used to acquire and/or construct major, long-lived capital facilities other than those financed by Enterprise Fund Revenue.

Separate Capital Projects Funds should be established for **each** project since normally each project is budgeted separately. On occasion, however, several related projects can be accounted for in a single fund. **THE DECIDING FACTOR IS THE LEGAL PROVISIONS SURROUNDING THE SOURCE AND USE OF REVENUE FINANCING AND PARTICULAR PROJECT.**

<b><u>FUND</u></b> <b><u>CODE</u></b>	<b><u>FUND NAME</u></b>	<b><u>ENTITY</u></b>	<b><u>REVENUE SOURCES</u></b>

## **FOR MONTANA CITIES, TOWNS AND COUNTIES**

### **FUND CODE**

### **FUND TYPE**

5000-5999 **Enterprise Funds** - The Enterprise Funds are used by cities/towns and counties to account for self-supporting activities of the governmental unit rendering services to the public and financed **primarily** from user charges. Enterprise Funds are identified in a separate group because of the nature of the accounting treatment recommended for them.

Enterprise Funds are accounted for in a manner similar to any profit-making business. More specifically, this means using periodic net income figures to determine the necessary user charges to allow the Enterprise to remain self-supporting.

Among the many types of self-supporting activities of governments that can be operated as Enterprise Funds are water utilities, sewer utilities, hospitals, nursing homes, parking facilities, solid waste, ambulance, airports, swimming pools, golf courses, and public transportation, fairs, horse racing to name a few (if not prohibited by legal restrictions).

**FUND  
CODE**

**FUND TYPE**

6000-6999 **Internal Service Funds** - Internal Service Funds are established to finance and account for service and commodities furnished by a designated department or agency to other departments and agencies within the governmental unit.

Internal Service Funds are used to: 1) attain greater economy, efficiency, and effectiveness in the acquisition and distribution of common goods and services used by several departments within an organization; and 2) to facilitate equitable sharing of the costs of those goods and services to the various departments of the governmental unit.

Many goods and services usually financed by Internal Service Funds are available on a commercial basis. Therefore, one of the benefits of using Internal Service Funds is the ability to compare the alternative costs of the two sources of service.

**FUND  
CODE**

**FUND TYPE**

**Internal Service Funds** - Services that can be accounted for as Internal Service Funds are central garage, central printing, equipment rental, central purchasing and stores departments.

As some examples:

7000-7999	<b>Trust and Custodial Funds</b> account for cash and other resources received by the <b>city or county acting as trustee or custodian</b> without equity ownership. Accounting methodology for both Trust and Custodial funds is so similar that the two are treated as one class.
7000-7099	<b>Trust Funds</b> - Trust Funds are established to account for assets received and held for a government acting as a custodian. They are normally subject to complex administrative and financial provisions outlined in the trust agreement and may be in existence for a long period of time. Examples of Trust Funds are public retirement funds, special deposit funds, and funds for gifts or bequests.

**FUND  
CODE**

**FUND TYPE**

9000-9999 **GENERAL CAPITAL ASSETS/GENERAL LONG-TERM DEBT GROUP OF ACCOUNTS** (No longer required to be reported under GASB Statement No. 34)

9000 **General Capital Asset Group of Accounts** - The General Capital Asset Group of Accounts is used primarily to account for all fixed assets not accounted for in **Enterprise, Internal Service, or Trust Funds**. These general capital assets are acquired by the general government as a whole and do not reflect ownership of a particular fund. To be classified a capital asset, a piece of property must possess three attributes: 1) tangible nature; 2) life greater than the current fiscal year; and 3) significant value. (Capitalization Policy should be adopted). With the implementation of GASB Statement No. 34, general capital assets now include infrastructure assets, and all assets are to be depreciated. **The maintenance of this account is not required, however, continued maintenance of the account with additional accounts for allowance for depreciation and depreciation expense at the functional level of expense will facilitate the development of the information necessary to prepare the government-wide statements required by GASB Statement No. 34.**

9500 **General Long-Term Obligations/Debt Group of Accounts** - Long-term debt (debt with a maturity of more than one year after the date of issuance) intended to be paid from governmental funds is general long-term debt. General long-term debt includes general obligation bonds, special assessment bonds, leases, purchase agreements, installment purchase contracts, judgments and claims, and other employee benefit amounts. **The maintenance of this account is not required; however, continued maintenance of the account will facilitate the development of the information necessary to prepare the government-wide statements required by GASB Statement No. 34.**
