Note: (1) Taxable property in Montana must be assessed at 100% of its market value except mining property and agricultural lands. Mining property is assessed based on net and gross proceeds from mineral production. The assessment on agricultural land is based on productive capacity.

Taxable value is that against which the mill levy is applied. These values are arrived at by the appropriate ratios found in Montana's Classification Act to the assessed values (e.g., the taxable value of residential property is 3.794% of assessed value).

The increase in Fiscal Year 1994 Assessed Value of Real Property was primarily due to the application of updated Agricultural Land valuation schedules. The decrease in Fiscal Year 2000 Taxable Value of Real and Personal Property was due to a 50 percent reduction in the business equipment tax rate.

**STATE OF MONTANA
PROPERTY TAX MILL LEVY FOR STATE PURPOSES**
For the Last Ten Levy Years

This portion of the property tax levy was developed to provide a nondiscriminatory method of financing public education in Montana. The State has statutory authority to levy up to six mills for the support of the State's higher education system. The General Fund is responsible for making up any deficiencies in the equalization system. In addition, the Legislature is directed by law to levy at each legislative session a tax of up to two mills on all taxable property in the State to provide for any deficiencies in the General Fund.

Levy Year	Higher Education System	Vo-Tech Centers	Primary & Secondary Schools	Total Mill Levy
1992	6.00	1.50	95.00	102.50
1993	6.00	1.50	95.00	102.50
1994	6.00	1.50	95.00	102.50

2000	6.00	1.50	95.00	102.50
2001	6.00	1.50	95.00	102.50

Each mill represents one dollar of tax levied on each thousand dollars worth of taxable property. The amount of property taxes needed for the year (net levy) is divided by the percentage determined collectible. This gross levy is then divided by the assessed valuation to arrive at the mill levy.
